Agenda Item: 12-26 Request to Proceed to Public Notice for Repeal of the Clean Water

Bond Act (01A NCAC 22 .0101-.0102, .0201- .0209, .0301-.0303, .0401 -.0403, .0501-.0506, .0601 -.0606, .0701 -.0704, .0801- .0802,

.0901 -.0906, .1001 -.1002, .1101- .1103)

Explanation:

Upon consultation with DENR, the Department of Administration has learned that the program has concluded and, therefore the rules are obsolete. The statutory authority citation in the Administrative Code to S.L. 1981, Ch. 909 should instead be to Ch. 993. Except to provide an important incremental benefit – along with other similar repeals – of ridding the Administrative Code of unnecessary rules, this repeal will not impact any existing entity economically or otherwise. These rules are among those previously recommended by OSBM to the General Assembly for repeal.

Recommendation:

It is requested that the Environmental Management Commission approve the request to proceed to public notice for the repeal of the Clean Water Bond Act.
